REMARKS

Claims 47-75 are pending in the present application. No claims have been amended.

Applicants believe that the present application is now in condition for allowance, which prompt and favorable action is respectfully requested.

I. DOUBLE PATENTING

Claims 47-75 are rejected on the ground of non-statutory double patenting over claims 31 and 1-30 of U.S Patent No. 6,636,568, since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

Applicants, while not acquiescing to the substance of the rejections, are submitting a Terminal Disclaimer with respect to U.S Patent No. 6,636,568. As such, the rejection under the judicially created doctrine of double patenting is overcome.
